SKILLS

- React.js, Next.js, and Tailwindcss- **Frontend**
- Express.js, Laravel, and Serverless - **Backend**
- AWS, Docker, & Kubernetes - **DevOps**
- Jamstack - **Fullstack** with the latest flavors!

PROJECTS

VAS Services App for an Ethiotelecom partner

🌐 www.poservices.et <- the repo is private

- Built and deployed a full-stack web app on Jamstack

Serverless App on AWS

⚙ serverless_TODO

- Deployed an efficient web app on AWS Serverless
- It was cost effective relative to Kubernetes (EKS)

Refactoring Monolith to Microservices

⚙ monolith-to-microservices-project

- Refactored a monolith app into microservices
- Utilized Continuous Integration (CI) with CircleCI
- Deployed microservices by utilizing Continuous Delivery (CD) with Amazon Elastic Kubernetes Service (EKS)

EXPERIENCE

Freelancing (2020 - now)
- Built and deployed on the Jamstack a full stack app for a client: *www.poservices.et*
- Built and deployed VAS API for 2 Ethiotelecom partners.

INSA (2015 - 2022)
- GNC Researcher
- Implemented Px4 and Dronecode successfully
- Introduced and implemented rapid prototyping with Processing.py

EDUCATION

Nanodegree in Cloud Development (DevOps)
Udacity Prepared by ALX-T (Aug - Oct, 2022)

Software Engineering
Holberton School Prepared by ALX SE (2022 - 2023)

Certificate in Fabrication Laboratory (FabLab)
Orange Digital Center (ODC) Ethiopia

Certificate in Business & Financial Education
STEMPower Ethiopia

BSc. Degree in Electrical Engineering
ASTU (2009 - 2013)
